15th May 2020

Dear Parent/Carer

I hope that all members of our school community are keeping safe and well. We are all missing the children being in school but are really enjoying seeing the work they are completing at home either via the class email address, Twitter or Tapestry posts.

For the final week of Term Five, we have decided to plan a project that your children can work on together as a family or individually if they wish. The teaching staff decided on the theme of 'Our Local Area' as this was a project that was already planned for the children had they been in school this term. This mainly looks at the area of Queenborough but can cover the whole of the Isle of Sheppey!

Your children may engage in as many of the learning activities as they wish and can choose to present the information in any way that they choose, either on their own or as a family. We have put together some ideas for each of the subject areas of Literacy, Geography, History and Creative ideas as well as some activities for Mathematics. Equally, if you have another brilliant idea linked to this topic, we would love to see that too! We have obviously built in some learning through play activities too, a vital time for all children regardless of their age!

Each year group will have the same planning attached to their class pages on the school website for this week. As a family you can decide on how much work will be enough for your child dependent on their age. As always, please do not feel pressured to carry out any of the work; our priority is that you all remain safe and well.

We hope you all enjoy your home learning this week and as usual please share what you are doing with your Class Teacher via the class email address, through our school Twitter page using #familylearning or for families with children in Year R or Nursery, please share their learning to Tapestry.

Yours sincerely

A Glass
